Hi Jennifer,

I left the original copy in your mailbox because you were going to be here tomorrow for the Sexual Harassment Class.
But here a copy anyway.

This new account that started in June is averaging 22,000 oxycodone dosage units every 30 days. Their current URL is 18,429. I am requesting a DUR to set this URL to a higher static level to meet the customers needs. Orders are currently being released because they are a new account within their first 120 days.
